

What is claimed is:

1. A hyperlipemia therapeutic agent comprising pitavastatins and eicosapentaenoic acid or an ester derivative thereof as effective ingredients.
2. The hyperlipemia therapeutic agent as described in claim 1, wherein the pitavastatins are pitavastatin calcium.
3. The hyperlipemia therapeutic agent as described in claim 1 or 2, wherein the eicosapentaenoic acid ester derivative is ethyl eicosapentaenoate.
4. The hyperlipemia therapeutic agent as described in any of claims 1 to 3, being a blood triglyceride-decreasing agent.
5. A composition for treatment of hyperlipemia comprising pitavastatins, eicosapentaenoic acid or an ester derivative thereof and a pharmaceutically acceptable carrier.
6. A method for treating hyperlipemia characterized by administering pitavastatins and eicosapentaenoic acid or an ester derivative thereof.
